

ERCALL WOOD ACADEMY

JOINT DISABILITY EQUALITY SCHEME AND ACCESSIBILITY

PLAN Sep 2024

Erccall Wood Academy is committed to ensuring equal treatment of all its students, employees and any others involved in the school community with any form of disability and will ensure that disabled people are not treated less favourably in any procedures, practices or service delivery. We will continue to develop a culture of inclusion and diversity in which disabled people can participate fully in academy life.

DEFINITION OF DISABILITY

The Disability Discrimination Act (DDA) defines a disabled person as someone who has a physical or mental impairment that has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

The Disability Discrimination Act 2005 amends the definition of disability, removing the requirement that a mental illness should be 'clinically well-recognised'.

People with HIV, cancer and multiple sclerosis will be covered by the DDA effectively from the point of diagnosis, rather than from the point when the condition has some adverse effect on their ability to carry out normal day-to-day activities.

The SEND and Disability Act 2001 extended the Disability Discrimination Act 1995(DDA) to cover education. Since September 2002 the Governing Body has had three key duties towards disabled pupils, under Part 4 of the DDA:

- Not to treat disabled students less favorably for a reason related to their disability
- To make reasonable adjustments for disabled students so that they are not at a substantial disadvantage
- To plan to increase access to education for disabled students.

This plan sets out the aims of the Governing Body of the Academy to increase access to education for disabled students in the three areas required by the planning duties in the DDA and to fulfil its general duties under the same Act towards staff and other service users.

GENERAL DUTIES

The general duty builds upon the duties of the Disability Discrimination Act 1995 including the duty to make reasonable adjustments to make sure disabled people are not placed at a disadvantage.

For students this includes:

- Increasing the extent to which disabled student can participate in the school curriculum.
- Improving the environment of the school to increase the extent to which disabled students can take advantage of education and associated services.
- Improving the delivery to disabled students of information, this is provided in writing for students who are not disabled such as the provision of Braille where appropriate.

The academy follows guidance from the SEN and Disability Act 2001. The academy does not discriminate against disabled children in their admission arrangements, and we take reasonable steps to ensure that the children are not placed at a substantial disadvantage to those who are not disabled. Staff aim to enable the fullest possible participation of students with disabilities or particular needs in all subjects, making provision, where necessary, to facilitate access to activities. Advice and support are sought from external specialists where it is required

The academy policies, procedures and practices reflect the academy aim to give all children, regardless of gender, race, culture or disability, equal access to all experiences and opportunities. On admission of a disabled student, Ercall Wood consider the following:

- Academy policies, procedures and practices relating to anti-bullying, school trips, the way risk assessments are carried out, learning and teaching, timetabling, the administration of medicines • The physical environment of the school
- The curriculum
- The ways in which information is provided for disabled students
- The priorities currently set in other plans, particularly the Academy Development
